EXPERIENCE

- Freelance Full-Stack Developer** Remote
Clients: TruQual & ADSD Engineering Oct 2025 – Present
 - TruQual:** Built a responsive **React** application with a role-protected admin dashboard using **Vite, code-splitting, lazy loading, and component-based architecture**.
 - Backend:** Developed a secure **Node.js + Express + MongoDB** backend with **Firestore JWT, RBAC**, and protected REST APIs.
 - Platform Features:** Implemented modular workflows including **CRUD operations**, event and candidate status tracking, newsletter management, and media/email integrations using **Multer, ImageKit, and Nodemailer**.
 - Client Solutions:** Working directly with multiple clients to develop, maintain, and deliver production-ready full-stack web solutions based on business requirements.
- Dentavibe** Etobicoke, ON, Canada (Remote)
Full-Stack Developer Feb 2025 – Oct 2025
 - Frontend Pages:** Delivered 10+ adaptive **React.js** pages with backend integration, streamlining lead workflows by **30%**.
 - CRM Integration:** Integrated **Zoho CRM** via REST APIs, automating lead capture and reducing response time by **25%**.
 - Role-Based Dashboards:** Developed secure, **component-based** dashboards for **Admin, Coordinator, and Dentist** roles using **JWT** authentication.
 - AI Integration:** Implemented AI-powered insurance and analysis features with real-time processing and automated email notifications.

PROJECTS

- Real-Time Chat App with Microservice Architecture** Live | Code
Distributed Chat Platform with RabbitMQ, Redis & Socket.IO
 - Microservices Architecture:** Hosted **Node.js + TypeScript** microservices (User, Chat, Mail) on **AWS EC2** with **RabbitMQ** for asynchronous OTP processing, **Redis** for OTP storage and rate limiting, and **Socket.IO** for real-time messaging, typing, and read receipts.
 - Authentication & Services:** Implemented **OTP-based JWT authentication**, Cloudinary image uploads via **Multer**, inter-service HTTP communication via **Axios**, and a **React** frontend with online presence, unseen message counts, and mobile-responsive chat UI.
- Career AI SaaS Suite** Live | Code
AI-Powered Career Intelligence Platform

- **InterviewIQ:** Built an AI-powered **mock interview** platform with **role-based difficulty adjustment**, smart voice-based follow-up questions, timer-based interview simulation, and **Razorpay** payment integration.
- **AI Resume Builder:** Developed an AI-powered **ATS-optimized** resume builder with automated summaries, resume parsing, and **90%+ keyword match** rate.
